

COVID-19 Masking Requirements

As of April 4th, 2022 masking requirements will be determined by individual instructors. Students enrolled in a program, in which the instructor requires masking to participate, must adhere. Please view the *Additional Information* section of each program to familiarize themselves with the instructor's masking requirements. Silvermine Art Center will continue to require masking in all common areas, including shared hallways and restrooms.

If an instructor allows for a masking-optional atmosphere, students should consider CDC guidance, which recommends that masks be worn while indoors in an area with a high [COVID-19 Community Level](#), when making the decision to mask or unmask.
